---

🪪 PROFILE

Full Stack Developer with a solid foundation in JavaScript, recently certified through an intensive IT Career Switch traineeship. Equipped with hands-on experience in building responsive web applications using modern frameworks, alongside proficiency in front-end and back-end development principles.

🧠 SKILLS

Programming & Scripting
HTML - Javascript - Python - PHP - Bash - CSS

Cloud Platform
AWS

OS
Linux (Debian)
Windows

Frameworks
Frontend: React, Bootstrap
Testing: Jest

Backend & Databases
MySQL

Version Control
Git

🎖 CERTIFICATES

AWS Certified Cloud Practitioner — Currently Studying

💼 PROFESSIONAL EXPERIENCE

IT Career Switch, *Coding Bootcamp*   01/2024 — 03/2025

Gazetteer Project
- Developed an interactive web application displaying country-specific demographics and geographic data using JavaScript, Leaflet.js, HTML5, CSS3, and Bootstrap.
- Integrated real-time API data using AJAX, JSON, and PHP, enhancing data accuracy and interactivity.
- Gained experience in responsive design and modular, scalable code structures, ensuring cross-device compatibility.
- Strengthened skills in front-end and back-end development, improving ability to work with APIs, dynamic data, and user-friendly UI design.

Company Directory Project
- Built a web application for managing employees, departments, and locations, implementing CRUD operations, search, and filtering.
- Used JavaScript (ES6+), jQuery, Bootstrap 5, and AJAX for a dynamic and responsive user interface.
- Developed the back-end with PHP and MySQL, focusing on real-time data handling, error validation, and modular structure.
- Strengthened skills in full-stack development, database management, and user-friendly UI/UX design.

Self Employed, *Courier (JustEat, UberEats)*   01/2023 — present
                                                                                     Stourbridge, West
                                                                                     Midlands
- Optimized daily delivery routes to complete 30+ orders with a 100% on-time rate in high-traffic conditions.
- Achieved a 4.9/5 customer rating by resolving issues proactively and maintaining strict quality assurance standards.
- Performed daily vehicle maintenance checks to ensure operational reliability and minimize service disruptions.

Wincanton, *Warehouse Operative*

- Conducted daily safety audits and protocol reviews, maintaining a zero-incident safety record over 12 consecutive months.
- Directed a 5-person team in pick-packing, quality checks, and deadline adherence, reducing processing times by 20% during peak demand.
- Supervised accurate tracking and dispatch of 100+ daily shipments using handheld scanners and manual logs, achieving 99% order accuracy in high-volume operations.
- Streamlined stock replenishment procedures, reducing downtime by 15% and improving workflow continuity.

08/2023 — 01/2024
Coleshill, West Midlands

Dominos Pizza, *Crew Member*

- Processed 50+ daily orders via phone and in-person interactions while coordinating food preparation
- Maintained 100% compliance with Food Safety Standards through rigorous hygiene audits and stock rotation practices.

06/2021 — 01/2022
Stourbridge, West Midlands
